

# Personal Care and Body Parts Dominoes

## How to play:

- Shuffle the tiles and give each player 7 tiles.
- The tiles left over go in a pile that players will take from if none of their tiles match the pictures on the tiles that have been placed down.
- The person who goes first will choose one of their tiles to place down.
- The next person chooses one of their tiles with a picture that matches one on the tile that has been placed down. They will place it next to the tile, with the matching sides touching. They then sign and say the meaning of the matched picture.
- Players take it in turns matching the pictures that have not already been matched. If they do not have one that matches, they only draw from the pile for their turn.
